Mitey **TITAN** MOVING PIPE RESTRAINER (MPR)

HIGHLIGHTED FEATURES:

- ▲ Mitey Titan MPR can be used to restrain out of control pipe due to equipment failure or operator error
- ▲ Patent Pending Smart Design
- ▲ Uses laser Doppler sensor to measure speed of pipe without contact on pipe (similar to speed sensors used in steel rolling mills)
- ▲ Once set-point is reached, the rams are activated instantaneously to restrain pipe before it gets out of control
- ▲ Can be used with any pressure control equipment where the pipe can escape due to reservoir pressure
- ▲ Maximum Working Pressure: 5,000 PSI
- ▲ Reduces hazards associated with field operation of pressure control equipment
- ▲ Rams machined for each size tubing and are 6 inch in diameter making large contact with pipe
- ▲ All materials come with MTR's, Letter of Compliance and Pressure Test Certificates
- ▲ Nitrogen bottle and accumulator shown for illustration only, actual pressure source is customized as per application
- ▲ Design Safety Factor: 2.5 minimum
- ▲ Customization as per client requirements

MTech Industries also manufactures and sells complete line of snubbing units, hydraulic catwalks, Catwalk Style Pipe Racks, BOP's, Pipeline Roller Units, Moving Pipe Restrainer, and other pipe handling and safety products
