## **TITAN** STANDALONE HIGH PRESSURE SNUBBING UNIT

**MTech Industries** is a leading manufacturer of Standalone High Pressure Snubbing Units similar to traditional snubbing units with enhanced Rig-up features and capability to work without a heavy duty crane or picker. This style of snubbing unit is used to move Tubulars in and out of wellbores in various international locations without using service rigs.

### **HIGHLIGHTED FEATURES OF STANDALONE HIGH PRESSURE UNITS ARE:**

- ▲ Standalone high pressure come with complete snubbing stack with custom designed Pull and Push Capacity and capable of working with pressure of up to 5,000 PSI
- ▲ Standalone compact snubbing units offer complete Workover Rig without using a Service Rig and utilize hydraulic rams to stand up unit with Gin Pole to pick-up pipe
- ▲ Frame assembly uses telescopic rams to stand up stack and is designed to lift unit up above wellbore with X,Y, and Z mobility (Not Shown in model below)
- ▲ Expandable Deck with option of handrails and swing gates
- ▲ Complete Snubbing stack design comes with Annular and Single Gate BOPs
- ▲ Custom built deck with fluid containment installed to minimize uncontrolled spills
- ▲ Complete and advanced Hydraulics to Control Jack and 4 Sets of Slips, Annular BOP, Single Gate BOP, and Auxiliary BOP as per client requirements
- ▲ Quick-disconnects used to hook-up all hydraulic connections within minutes
- ▲ Portable Operator Console can be set-up on any safe location.
- ▲ Load Manager System used to stabilize the stack weight
- ▲ Mounting fixture/cradle for complete unit assembly storage while traveling
- ▲ Highest Quality product with all components engineered with 2.5 safety factors
- ▲ Truck/trailer deck equipped with hydraulic outriggers to stabilize while in field operation
- ▲ Customer to specify capacity of 150K, 250K, 340K or custom designed
- ▲ Customization as per client requirements.
